"The democratic form of government is a government getting the results asked for by the people."

"The people have demanded increased purchasing power with a lower cost to live."

"Your Government is striving to attain that result."

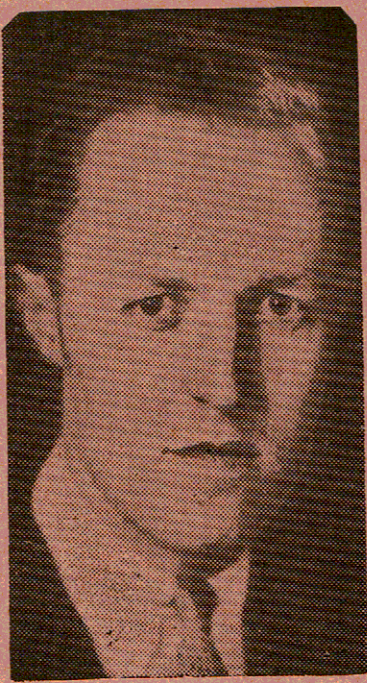

"The people must retain their unity of purpose for results---their determination to bring about increased purchasing power, namely a monthly dividend and a lower cost to live."

"Give us your hand in support."

"Our weapon is a people that make themselves SEEN and HEARD in support of progressive action and to protest against all who obstruct progress."

"Let yourselves be heard."
