. . READ ON . .

Says

THE TORONTO SATURDAY NIGHT:

"In Alberta and Saskatchewan . . . . by 1936 that percentage (of farms operated by owners) had dropped to 48.

"This transfer of ownership has certain indications of permanency and we may expect to see each year *an increasing area of Western Land pass into the hands of investing institutions* — MORTGAGE COMPANIES, LIFE INSURANCE HOUSES and BANKS.

"This trend will undoubtedly be greatly accelerated when existing moratoria and debt adjustment Acts are removed and normal methods of enforcing collections can be resumed."

WHAT DOES THIS MEAN?

The Financiers Know That . . . .

POST-WAR DEFLATION OF COMMODITY VALUES MAY

FORCE MANY FARMERS TO THE WALL

unless they are Protected by Social Credit Legislation, under which their

PROPERTY IS NOW SAFE

A Legislature of Independents will be disunited because it will have

NO UNITED POLICY

and will therefore be powerless to prevent foreclosures.

MH

IF ELECTED . . .

Independents will repeal Acts that

PROTECT YOUR HOMES

Then, *WHEN YOU ARE BEING EVICTED*, and you go to your Independent representatives, having no united plan, they will be unable to agree among themselves on the right way to give you protection.

WHILE THEY WRANGLE, THE MONEY POWER WILL FORECLOSE, EVICT AND TAKE TITLE WITHOUT MOLESTATION.

To Vote for an Independent is to
